

CN302

From Dvd-game

CN302 is a 10-pin serial connector on the middle of bottom of the DVD drive's board. It connects to various pins of port 8. The drive can accept incoming Serial Commands and output data.

CN302 -> MN10200

1 -> GND
7 -> 46
6 -> 47
2 -> 48
4 -> 49
3 -> 50

So:

[10 09 08 07 06]
[01 02 03 04 05]

PortNr	CN302 Pin	MN10200 Pin	Use by original Firmware
P80	7	46	Port
P81	6	47	Port
P82	2	48	SBT3 halfduplex out (actually seems to be in)
P83	4	49	TM4I0 input SBI3 input (use that as SI)
P84	3	50	S803 output
P85	(?)	51(?)	TM9I0A input ST4 input
P55	(?)	(?)	S800
P42	(?)	(?)	TM5I0A
