CMDFF

From Dvd-game

In order to enable the Debug mode, you need to send

```
FF 01 4D 41 54 53 48 49 54 41 02 zz
FF 00 44 56 44 2D 47 41 4D 45 03 zz
```

(that's two commands)

this will unlock the Debug commands. They can't be used otherwise.
